

JEREMY PERANDO

Frostburg, MD

Summary

Versatile computer science student with work experience programming PLCs and Microprocessors and designing webpages. Experience working with embodied AI in academic research. Comfortable working in JavaScript, Java, Python, and C++.

Education

Frostburg State University, Frostburg, MD 2022 – May 2026

- Bachelor of Science in Computer Science
- Awards: 6 Semester Distinguished Dean's list

Nagasaki University, Nagasaki, Japan 2025

- Studied Japanese Language and Culture

Work Experience

Freelance Web Development, Frostburg, MD 2024 - Present

- Designing and maintaining websites for local businesses
- Configuring hosting servers and web security certificates

Xologies Incorporated, Intern Programmer, Accident, MD 2022 - 2025

- Created web interfaces for microprocessors
- C++ Embedded systems programming
- On-site network installation

Projects & Leadership Experience

Enhancing Robotic Navigation with LLMs, *Published Research* 2025

- Built a robot to test the effectiveness of LLMs in spatial reasoning tasks
- Used AI technologies to create an embodied AI
- Co-authored a peer-reviewed paper on the research

FRC Robotics Team Mentor, *Volunteer Coaching* 2023 - Present

- Teaching new programming skills to high school students
- Managing a team to finish tasks on a tight deadline

Technical Skills

- Computer Languages: JavaScript, Java, Python, C, C++, HTML, CSS
- Tools: CAD Software, SQL Databases, Git, REST, UI/UX Design, IoT Programming
- Skills: Artificial Intelligence, Computer Vision, Robotics, Server Management, Embedded Programming
